

Randy Runyon

Randy Runyon brings a truly unique combination of education and experience to every church he serves. Educated in construction, at ABC Technical Career Center, Randy began his career as a construction superintendent. Called to ministry after years of commercial and residential construction experience, Randy returned to school to earn his diploma in Pastoral Theology.

Randy spent the next thirteen years as a full-time pastor. During his time as senior pastor, Randy led Life Point Assembly of God through two complete renovations, multiple remodels and the new construction of their present facility.

As a pastor and as a contractor, Randy immediately recognized the value of the Midwest Method. “As a pastor, it’s important to have a clear vision of your building project; Midwest helps them to realize that vision.”

Randy specializes in working with churches considering remodeling and or additions. “We have a genuine concern and care for every church we work with.”

Randy and his wife Michelle have enjoyed nineteen years of marriage and ministry together. They reside in Delaware Ohio with their seventeen year old son, Dustin.

“The church is more than just brick and stone, it is a building to foster community and one’s relationship with Jesus Christ.”
